MARU-A-PULA-INVESTMENTS (PTY) LTD COMPANY PROFILE

MISSION STATEMENT

To ensure that Maru-A-Pula-Investments (Pty) Ltd continues to grow community-based projects, and implements cost-effective AMD effluent and other water treatment solutions throughout South Africa.

To continue to provide a patented solution, by utilising products containing Marine 3 – Marine 3 is the worldwide patented, environmentally-friendly surfactant of Maru-A-Pula's technological partner, Mosmart Investments (Pty) Ltd.

To nurture Maru-A-Pula's partnership with Mosmart Investments, to guarantee that the products used in AMD effluent and other water treatment solutions remain environmentally friendly, and exclusively supplied to Maru-A-Pula.

To continue to uplift communities through skills transfer and job creation.

VISION

To be the choice service provider of AMD effluent and other water treatment solutions which transform not only the quality of water, but also quality of life for communities across South Africa.

COMPANY BACKGROUND

Maru-A-Pula is a black-owned company which offers all-in-one AMD effluent and other water treatment solutions.

Maru-A-Pula was founded by its current directors – Moya Nape, Thandeka Mandindi and Gregory de Villiers - in response to the lack of a superior, economical, and time-efficient solution to treat and purify water.

In order to provide cost-effective AMD effluent and other water treatment solutions, Maru-A-Pula joined forces with Mosmart Investments (Pty) Ltd, its technological partner. Mosmart Investments holds a worldwide patent in respect of Marine 3, an environmentally-friendly surfactant used in the manufacture of its tailor-made products. Site-specific combinations of products are used in treating, purifying and transforming water.

By filling this gap in the market, Maru-A-Pula has opened up the possibility for all communities to reap the benefits of implementation of the AMD effluent and other water treatment solutions.

These advantages include eradication of waterborne diseases such as cholera, diarrhoea, dysentery and typhoid; prevention of mosquito and black fly larvae from maturing; prevention of water contamination; access to potable, safe water; skills transfer; and job creation.

Collectively, the board and regional general managers of Maru-A-Pula have extensive experience and qualifications in various industries, which include water treatment, environmental affairs, accounting and traditional affairs. It is these skill-sets which enable Maru-A-Pula to offer all-inclusive AMD effluent and other water treatment solutions.

COMPLIANCE

Company Registration No. 2013/185926/07

SCOPE OF SOLUTION

Maru-A-Pula offers extremely cost-effective and time-efficient AMD effluent and other water treatment solutions for any water source across South Africa.

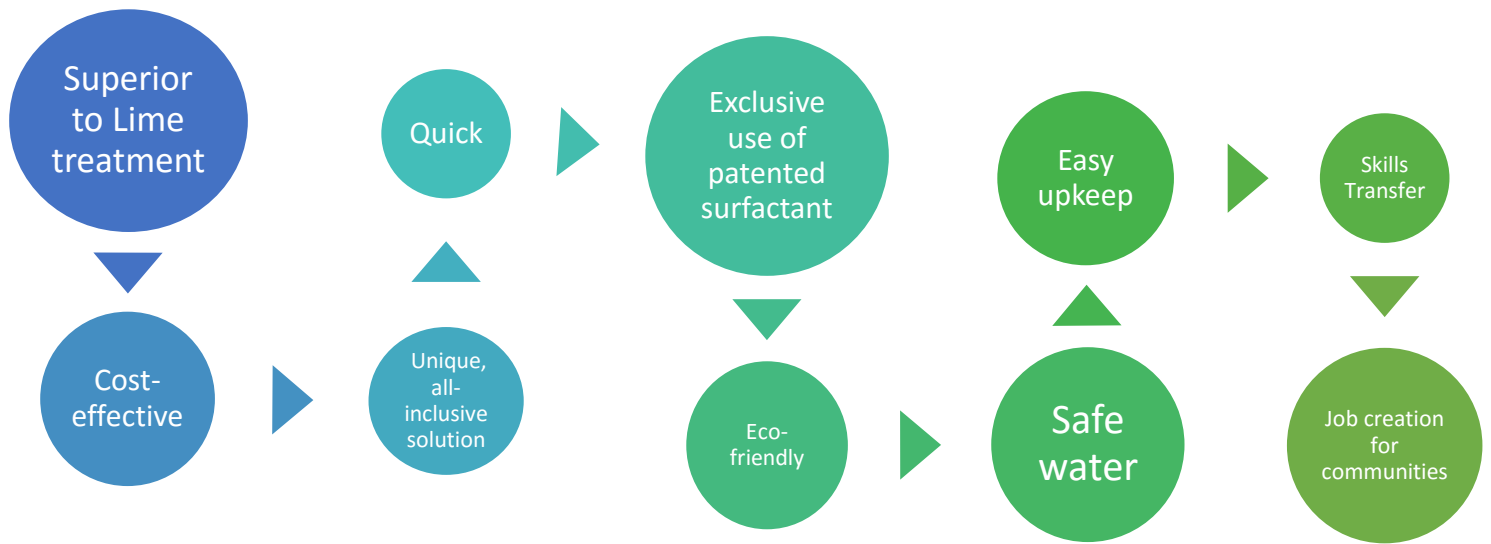

Through the use of Mosmart Investments' products – which contain Marine 3, Mosmart's patented surfactant – as well as bacteria, Maru-A-Pula is able to transform any water source.

Our process of transforming water is extremely effective, quick and simple, thereby outstripping Maru-A-Pula's competitors which offer less-effective and time-consuming solutions, such as lime treatments.

The solution also out-performs Maru-A-Pula's competitors from a cost perspective, which is made possible through both the structuring of the solution as well as Maru-A-Pula's reliance on Mosmart Investments' unique products.

Maru-A-Pula offers a turn-key solution for your water transformation requirements.

It is evident that our unique AMD effluent and other water treatment solutions can revolutionize water quality and quality of life; and at the same time, cut costs and accelerate transformation of water to a potable standard.

Above: Key benefits of our AMD effluent and other water treatment solutions.

MARU-A-PULA BROAD-BASED BLACK ECONOMIC EMPOWERMENT

Maru-A-Pula is a proudly South African, black-owned entity. It is the holder of a level 1 B-BBEE certificate.

From a compliance perspective, Maru-A-Pula observes and endeavours to abide by the Codes of Good Practice, issued in terms of the Broad-Based Black Economic Empowerment Act, 53 of 2003.

Otherwise, where possible, Maru-A-Pula focuses on BEE with particular regard to BEE procurement, skills development and social responsibility.
